SIR,

As called for in paragraph 3 of Government Order No.G.9378-432/P.P.134-18-26 dated the 25th November 1918, I have the honor to forward herewith the proposals submitted by the Food Controller and the several Deputy Commissioners except the Deputy Commissioner of Chitaldrug District in the matter of assuming control over the crops that are being harvested or that will be harvested within the next few weeks.

2. The Deputy Commissioner, Hassan District, considers that the existing arrangement of control over the export of food grains would quite meet the conditions in his District which do not warrant the adoption of any such measures. The Deputy Commissioner, Shimoga District does not consider any separate scheme necessary for the purpose as the order for regulating the transport and sale of food grains are enforced with regard to the coming crop as well. The Deputy Commissioners of Bangalore, Kolar and Tumkur Districts and the Food Controller suggest the taking of a census of stock of the new harvest. The Deputy Commissioner, Kadur District, thinks that it would suffice if the grower is required to execute a mutchalika that he would not dispose of the harvested grain without permission and the stock commandeered under the rules as occasions arise.

3. Under the rules now in force, permits have to be obtained for transport of the controlled food grains from one place

to another within the State and this will act as a sufficient check against the unrestricted removal of the new harvest from place to place. Considering that the season conditions have improved of late and that it is the policy of Government to encourage the ryots taking their produce freely to the market and to resort to commandeering only as a last resort when stocks are hoarded and withheld from the market, I am of opinion that no special measures of control are required over the newly harvested crops.

Sir,

With reference to your letter No.C.2110/G1. dated 27th November 1918, calling for my proposals for assuming control over the crops that are now being harvested or that will be harvested within the next few months, I have the honour to state that in my opinion the only control that is required is to make strict bandhobust to prevent exports outside the State and to see that the merchants deal in grain only under licenses and transport grain under transport permits. The rules already framed by Government provide for this amount of control. It may also be desirable to take a census of stocks after the new harvest.

The proceaure to be adopted for assuming control over crops that are being harvested and that will be harvested within the next few ~~months~~ weeks, may be as follows:--

1. A notice should be published in every village to the effect that the crops of Paddy, Ragi, ~~Jadhava~~ Jolum, Navane and Horsegram that are being harvested should not be exported outside the State.

2. Every occupant should send an account of the area of different crops that are being harvested and to be harvested and the estimated outturn to the Patel of the village within three days of the publication of the notice.

3. The Patel of the village should collect all the accounts from the occupants and with the help of the Shanbhogue if necessary, prepare a consolidated statement and send it within three days to the Hobli Shekdar whose duty will be to prepare a consolidated statement for his hobli and send it to the taluk within five days. The Amildar will get a consolidated return prepared for the whole taluk Hobliwar and send a copy to the District Office within a week.

4. Each occupant must give previous notice of at least two weeks when he intends to thresh the crops. It is open to the Village Committee and the Patel to be present at the time and measure the produce realised.

5. The Patel or the Village Committee should send the actual outturn of harvests every day to the taluk office where daily totals should be made villagewar and a report submitted to the Deputy Commissioner. After the harvests are completed a villagewar and hobliwar return should be prepared for the taluk and submitted to the Deputy Commissioner.

6. Any one contravening the foregoing rules will be deemed to have committed an offence under the Defence of India Rules, liable to imprisonment for ~~seven~~ a term extending to three years or fine or both.

Sir,

With reference to your letter No. C.2120 Gl. dated 27th November 1918 calling for my views in the matter of securing possession of the yield of the next harvest, I have the honour to state that I have called for the opinions of Amildars and Sub Division Officers in the matter.

2. What strikes me is that all persons might, say during January, be called upon to give intimation to their village Patel of the date of threshing and harvesting, just as in olden days notice of picking of areca nut was necessary, that the Patel with a Panchayet might be ~~admitted~~ directed to visit each kana and prepare a list showing the yield taking the signature of the Panchayet and the owner or cultivator and that verification of the account by Amildar and Food Inspector might be insisted upon. After the lists are prepared the quantities might be added to the quantities of existing stock and commandeered if necessary.

3. Where as is generally the case in regard to wet lands rent in kind is due to an ~~alienated~~ absentee landlord the transport thereof to where the landlord lives might be permitted and intimation given to the persons in authority there ~~in them~~ so that he might add this quantity to the last stock of the landlord, and take needful action.

Sir,

With reference to your letter No.2110 of the 27th. November 1918 calling for my proposal for assuming control over the crops that are being harvested or that will be harvested within the next few weeks, I have the honour to state that I see no necessity to propose the adoption of this measure in this District. The chief articles of foodstuffs viz, Ragi and paddy are available and the coming harvest is expected to yield a fairly good outturn which will be sufficient for the requirements of this District. Arrangements have also been made to supply a good quantity of Ragi (about 4,000 tons) to other Districts. If export of foodgrains to outside the District other than the quantity settled to be supplied is carefully guarded and put a stop to, I am hopeful that our requirements can be met from what is grown here without having recourse to the proposed measure of assuming control over the crops to be harvested which besides involving land owners and cultivators in trouble and loss, is beset with innumerable difficulties in its working. Already the commandeering system and Declaration and licensing system have created irritation to the people. The conditions in this District are not so serious as to warrant the adoption of the drastic measure proposed.

I have the honour to be,
Sir,
Your most obedient servant.

Deputy Commissioner,
Hassan District.

My dear Mr Kuppuswamayya

In reply to R/S No 2-110 GL 18-08 27-11-18
I am writing to say that Mr Matheson who left here this afternoon has arranged to get a supply of 200 tons of Rice for this Branch Store here and has bound himself to give him this supply. He took their prices over & has asked for proposals to be given to other mills in Mysore & Madras also for the supply of the retail venders in Mysore.

Mr Lees therefore has arranged that no further steps need be taken on the indents of paddy & Mysore. I am issuing instructions to the paddy buying Inspectors & Sub Agents.

In matters such as these the attitude
is put as by the time this reaches you he
will have seen the 2 Chambers obtained his
views on all these matters.

After this is any other proposal
from him necessary?

As for any similar steps now
initiated by him taken, strict precautions
being taken to prevent exportation

Please ascertain the Viceroys
views this matter and give me a reply at
once.

With reference to your letter No.C.2210/G1. dated 27th November 1918 requesting the submission of my proposals for assuming control over the crops that are now being harvested or that will be harvested within the next few weeks, as required in para 3 of Government Order No.G.9378-432/P.P.134-18-26 dated the 25th November 1918, I have the honour to state that for the purpose of exercising sufficient control over the crops of the new harvest it would suffice if the grower is required to execute a mutchalika binding himself not to dispose of the grains harvested without a written permission -- either from the Amildar ~~of~~ such other officer as may be authorised by him in this behalf. The Sub Division Officers of Chikmagalur and Tarikere, who were called upon to furnish their views in the matter, are also of the same opinion.

2. The new harvest may ~~be~~ also be commandeered according to the rules contained in the Government Order of the 25th November 1918 referred to above, after allowing the ryot such quantity as may be -- necessary for his family and his dependents as prescribed in the said order.
